November, 2006 News from CareNow

Greetings to you from CareNow. As you read this, we will be packing the final necessities into our bags for our trip to South Africa and Zambia. It will be my first trip, and I cannot begin to tell you how excited I am to visit this amazing continent to see first hand how the money we are raising is directly contributing to the well being of those in need.

While in South Africa, Ed Bjurstrom and I will be meeting with representatives from Lily of the Valley in order to put together the working budget for supporting the community clinic currently under construction. The support of this clinic will be the foundation of our fundraising activities for 2007. Additionally, we will meet with CharisHealth, our partners in developing HIV/AIDS-specific clinic models. After a week in South Africa we will head to Zambia.

The Zambia clinic supported by CareNow is located outside of Zambia's capital city of Lusaka, and we will be witnessing the work of the individuals of Action Zambia/Action International as they provide care for the members of the surrounding community. As a result of our generous donors, this clinic will receive operational support for the next year!

Quote of the Month

from www.africanevents.com

*" The heart of man and the bottom
of the sea are unfathomable. "*

CareNow celebrated another milestone this week in the official opening of our headquarters in Westlake Village, California. Members of the Thousand Oaks/Westlake Village Chamber of Commerce welcomed us to the community, and we enjoyed telling them about our efforts. Many of our supporters came out to lend a hand in the celebration as well.

November brings with it the celebrated period of Thanksgiving, and the sharing of your love and bounty with family, friends and those in need, leaving an imprint on the world and receiving, in turn, the happiness that can only come from an open heart. As always, I wish you health and happiness.

Carrie
